JavaScript, CSS , HTML 5, GitHub, j Query, Node, Bootstrap, React JS

PROJECTS

Weather-Dashboard

MMM 'YY - MMM 'YY

<https://github.com/Olasunkanmi-O/weather-dashboard> |
<https://olasunkanmi-o.github.io/weather-dashboard/>

- Summary: This app was developed for travellers, such that you can check the weather conditions of the city you are planning to visit. It displays the weather conditions such as temperature, rainfall, UV index, wind speed. You are required to simply type in the city you plan to visit in the search box and it gives the details of the weather for that day and a 5 day weather forecast
- Role: Sole author
- Tools/Languages: HTML, CSS and JavaScript

Quiz Challenge

MMM 'YY - MMM 'YY

<https://github.com/Olasunkanmi-O/Timed-Quiz> |
<https://olasunkanmi-o.github.io/Timed-Quiz/>

- Summary: This app tests your knowledge about front-end development basics. When the start button is clicked, it displays the first question, and the timer starts counting down, you lose 10 seconds for every questions missed. The number of seconds left at the end of the quiz determines your score. You can save your high scores as well.
- Role: Sole author
- Tools/Languages: HTML, CSS and JavaScript

Password Generator

MMM 'YY - MMM 'YY

https://github.com/Olasunkanmi-O/Password_Generator |
https://olasunkanmi-o.github.io/Password_Generator/

- Summary: Sometimes it might be a bit difficult to generate strong password just on the go and this is the problem the app aims to solve. It requires few inputs from you as regards the type of password you will like to generate. You will be required to allow some forms of input which range from strings(character), numbers, special characters, and symbols. The app then simply generates password based on the number of input you choose.
- Role: Sole author
- Tools/Languages: HTML, CSS and JavaScript

README Generator

MMM 'YY - MMM 'YY

<https://github.com/Olasunkanmi-O//ReadMe-Generator> |

<https://olasunkanmi-o.github.io/ReadMe-Generator/>

- Summary: A professional README speaks so much about your project. It is the first part of the project that users have access to. A good readme gives a summary of the app, how the usage is, how to install the application, the type of license used, list of contributing developers, type of test to run and probably contact information. This app asks series of questions and generates a professional README for you.
- Role: Sole author
- Tools/Languages: Node JS

EXPERIENCE

Transportation Manager

May '18 - Feb '22

Coca-Cola Hellenic Bottling Company

Nigeria
